

COPYRIGHT CITATIONS

Much of the statistical data reproduced here was taken from publications of the U.S. government and is not copy protected. The contributors to this volume have freely reproduced definitions and methodological descriptions of data and data sources from government publications, including earlier editions of *Historical Statistics of the United States*, without direct quotation or citation.

Data from sources other than the U.S. government may be under copyright. Cambridge University Press has made every effort

to secure, where necessary, permission to reproduce such protected material. In almost every case, the permission requested was freely granted. In a few instances, however, the copyright owner requested a specific citation or acknowledgment. These citations are provided here. Cambridge University Press thanks all copyright owners for their generous permission to reproduce the data included in this edition of *Historical Statistics of the United States*.
